City Council Special Meeting Minutes July 7, 2026 1/2

Fails PDF/UA-1: 5 rules, 5 failed checks

1 pages · 40 KB · not tagged · scanned image, no text

Passes PDF/UA-1 machine checks (veraPDF)

2 pages · 39 KB · tagged

Main problems found

- No XMP metadata
- Content that is neither tagged nor marked as decoration
- Window shows the file name instead of the document title
- No tag structure at all (screen readers get no headings, lists or reading order)
- Not marked as a tagged PDF

What we did (OCR + Typst rebuild)

- Original was a scanned image: no text at all for a screen reader or search.
- OCR, then proofread against the image and rebuilt with numbered headings.
- Roll call and closed-session details became small data tables with headers.
- Signatures kept as images with alt text, plus the signers' names as text.

Still to do before delivery to a client: a person reads the file with a screen reader (NVDA) to confirm reading order and alt text, and the agency approves the rebuilt layout. Rebuilt files carry the same content as the original, not a pixel copy of its design.
